

Order example (case and assembly type)

DSM / DBM connector (DSM = D-Sub male header mixed layout DBM = D-Sub female header mixed layout)	7W2 Contact pattern (see overview) case	L connection type signal contact (L = solder bucket connection)	GN assembly type (see overview)	UN internal thread (UNC 4-40)
			assembly type (optional)	

Overview contact pattern

- the contact pattern is valid for male headers
- for using socket connectors the hole pattern has to be mirrored
